Detail-oriented and motivated Software Quality Assurance Engineer with over 1 year of experience in testing web and mobile applications. Skilled in manual and automated testing, API testing, and Agile/Scrum environments. Proficient with tools like Cypress, Postman, JIRA, and SQL. Demonstrated ability in designing test strategies, executing test plans, ensuring software quality, and mentoring QA interns. Committed to delivering reliable and high-performing software solutions

EXPERIENCE

Software QC Engineer

Sanepa, Lalitpur

Dolphin Dive Technology

Apr, 2025 - Present

- Conducted manual testing (functional, regression, integration, API) for web-based applications.
- Designed and executed test cases based on technical and business requirements.
- Performed API testing using Postman and Swagger; executed SQL queries for data validation.
- Participated in Agile ceremonies and contributed to sprint planning and retrospectives.
- Involved in CI/CD testing and integration with Azure DevOps pipelines.
- Reported bugs, created QA documentation, and collaborated closely with developers.

Freelance QA & Requirement Analyst

Remote

Everest Vape

Nov, 2024 - Jan, 2025

- Gathered and documented project requirements for a custom-built e-commerce platform.
- Performed end-to-end functional and usability testing to enhance user experience.
- Identified, reported, and tracked defects, ensuring smooth deployment.

QA Engineer

Kathmandu

Whetstone Associates

Mar, 2023 - Dec, 2024

- Designed and executed test plans, test cases, and automated scripts to identify defects and improve software reliability.
- Performed functional, regression, integration, and performance testing for web and mobile applications.
- Collaborated with developers, product managers, and UX designers to ensure high-quality releases.
- Automated test cases using Cypress to enhance test efficiency.
- Managed bug tracking and reporting using JIRA and Zoho.
- Provided mentorship to QA interns, guiding them in test planning, defect tracking, and automation best practices.

QA Internship

Kathmandu

Whetstone Associates

Jan, 2023 - Mar, 2023

- Assisted in writing and executing manual and automated test cases.
- Participated in Agile ceremonies, providing QA insights on sprint planning and retrospectives.
- Used Postman for API testing and JMeter for performance testing.

Shankher Dev Campus

Jan, 2024 - Present

Bachelors in Computer Engineering

Bhaktapur

Khwopa Engineering College

Nov, 2017 - Aug, 2022

+2 Science Stream

Kathmandu

DAV College

Sep, 2015 - Aug, 2017

SLC

Bhaktapur

PROJECTS

Everest Vape

Technology Used: NextJS, MySQL

E-commerce platform specializing in vape products, featuring a streamlined checkout process and WhatsApp integration.
everestvapor.ae

Bus Seat Reservation System

Technology Used: C

Developed a real-time bus booking system that allows users to reserve seats and manage bookings.

Mero Helmet

Technology Used: HTML, CSS, JavaScript, PHP, MySQL

A safety initiative web application featuring a real-time feedback system and secure data management.

Face Recognition Attendance System

Technology Used: Python

Automated attendance tracking using facial recognition technology.

ASL Interpretation Using CNN

Technology Used: CNN (Convolutional Neural Network), Python

Developed a real-time American Sign Language (ASL) interpretation system using deep learning.

Voice Assistant

Technology Used: Python, Speech Recognition

Created a voice-activated virtual assistant capable of executing basic commands.

TRAINING/CERTIFICATIONS

Quality Assurance Training

2022

Broadway Infosys
